

Academy of Ballet Arts, Inc 2009-2010

Required Attendance Policy

The Academy is a professional school and requires its students to be committed to its high standard of training and attendance. The faculty recognizes that not every student who studies Ballet has professional aspirations, but it is our objective to provide professional training that will permit all students the option of that choice.

The charts below indicates what classes are required for each Class Level offered in 2009-2010. In most levels there is also a list of “encouraged” classes. These classes are ones that our Faculty highly recommend to prepare a student for advancement to the next level.
